## Our Patrons & Advisors

#### **Our Patrons**

**Prof. Hakim Syed Zillur Rahman** - President of Ibn Sina Academy of Medieval Medicine and Science, Aligarh, India.

**Dr. Mohammed Khalid Siddiqui** – Former Director General, Central Council for Research in Unani Medicine (CCRUM).

**Prof. Mir Ajab Khan** - Former Dean, Quaid-i-Azam University, Islamabad, Pakistan.

#### **Our Consultant Advisors**

**Dr. Ziauddin Ahmed Nadvi** - Chairman of Al-Hikmah Foundation, New Dehli, India.

**Dr. Rafeek Hameed** - ND, PHD, MGNI, Sri Lanka.

### A Brief Introduction

Welcome to the College of Medicine and Healing Arts: a leading organisation for practice, research, and training in the wisdom and science of *Tibb* – whole-person healthcare and medicine, established in Leicester, England.

We are an initiative dedicated to develop and synthesise traditional knowledge and forms of medicine such as *Unani Tibb*, *Tibb-un-Nabawi*, and *Ilm-un-Nafsiyat*, along with useful and beneficial research and innovations from Complimentary & Alternative Medicine (CAM).

Mohsin Health (providing consultations, natural remedies, and trusted health information), since 1978, and College of Medicine and Healing Arts (CoMHA), since 2011, are pioneers and custodians of these knowledges and skills.

The College welcomes you into its fold and we look forward to serving you as our valued learner and student.

Details of the programmes the College offers are available in this prospectus.

Best wishes, Principal M Salim Khan M.D. (M.A.) M.H. D.O.

# Tibb-un-Nabawi (Prophetic Medicine)

"We have sent among you an apostle Muhammad from among yourselves, rehearsing to you Our signs and instructing you in scripture and wisdom and in new knowledge." (Surat al-Baqarah, ayah 150)

The perspective of *Hikmah* (wisdom) is reflected in the institution of *Nubuwwa* (Prophethood) ending with the Final *Nabi Muhammad*. The principle of *Tawhid* (oneness and unity) permeates deep into the structures of the cosmos and human self.

Ţibb-un-Nabawi – Prophetic Medicine is:

"A compilation and systematization of an aspect of the legacy of the Prophet in the domain of diet, health and illness complementing the legal, intellectual and spiritual dimensions of the legacy he left..."

Tibb-un-Nabawi led to the synthesis of Tibb as a whole:

"This medicine remained distinct while interacting with the medicine which was then being learned from Greek, Persian and Indian sources, the latter process resulting in that synthesis in the hands of such masters as al-Tabarī, al-Rāzī and Ibn Sīnā..."

# Tibb: Whole-Person Healthcare & Medicine

Tibb is an Arabic word which in different places of the world, has been referred to as Arabic, Greco-Arab, Hikmah, Yunani, Oriental, Islamic, Prophetic, and Sufi medicine. Some of the most illustrious names in medical tradition such as Ar-Razi of Persia, and Ibn Al-Baytar of Andalusia, Spain, are associated with the tradition of Tibb. Maimonides of Cairo, Egypt and Ibn Sina (Avicenna) were practitioners and teachers of Tibb. Tibb is a tradition of health whose synthesis was in the crucible of the Middle East, and integrates elements from Egypt, India, China and Classical Greece.

Today, *Tibb* continues to provide relief for millions of people in India, Pakistan, Afghanistan, Bangladesh, Malaysia, various parts of the Middle East, Africa, USA, Europe and the United Kingdom. *Unani Tibb* is recognised by the World Health Organisation as a tradition of medicine.

#### Wholeness and Balance

Tibb, which literally means "nature", is a body of knowledge and practice which maintains health and endeavours to restore it when lost. Health is a purposeful

condition of *i'tidal* – dynamic balance, in which all the functions of the human being are carried out in a correct and whole manner. The concept of *wholeness and balance* permeates the philosophy, principles and practice of *Tibb*. Once, the condition of wholeness and balance was a norm for most human beings. However, as people and societies moved away from *Fitrah* – the natural way of life, disharmony and diseases increased.

### **Diagnosis**

There are three types of professionals within *Tibb*: *Hakim* – a consultant physician; *Tabib* – a physician; and *Mu'allij* – a practitioner. Every physician within the *Tibb* tradition works with the whole person. In their diagnosis or evaluation, they assess the whole person, while attempting to find the locus of any given disease. An imbalance may be found on one or more of four levels: physical, emotional, mental and spiritual. Depending upon the individual patient's *Mizaj* – temperament, the physician can use one or more of the available techniques or modalities to restore order and balance.

#### **Treatment**

On the physical level, the physician may select massage, manipulation or cupping. This may be complemented with subtle changes in diet supported by a single or a

#### Prospectus | Tibb: Whole-Person Healthcare & M...

compound remedy from a rich materia medica – selection of healing materials, mostly plant-based.

If necessary and appropriate, the physician can use *Nafsiyat* – holistic psychotherapeutic measures to balance the inner dimensions of emotions or thoughts. If there is a spiritual imbalance, then the Hakim may use *Ruhaniyat* – logotherapy – to harmonise the transcendental aspects of *Ruh* - spirit, the core of the human being.

# Programmes Available Personal and Foundation

#### **Weekend Courses and Retreats**

Suitable for those wanting to learn how to improve their health and wellbeing using the time-tested healing wisdoms of Tibb and Ilm-un-Nafsiyat.

Entry requirement: open to the public, adults only.

Language: English.

Visit our website <u>www.CoMHA.org.uk</u> for the latest information on what weekend courses are being offered.

## **Foundation in Tibb (Natural Health)**

In-person experience with Principal Hakim M Salim Khan to set the foundations of Tibb knowledge and practice with a specific focus towards our professional Diplomas.

Entry requirement: open to the public, adults only.

Language: English.

Visit <u>www.CoMHA.org.uk/Diploma</u> to see information on our next intakes in the UK and USA.

# Programmes Available Practitioner Diplomas

### **Professional Diploma Qualifications**

These programmes are suitable for those interested in learning traditional (Tibb) and modern (Complimentary & Alternative) skills to help their patients and clients:

Diploma in Herbal & Naturopathic Medicine (Tibb)

To achieve a Professional Diploma, detailed assessment criteria are available in the Student Handbook. Briefly, a student must complete the following:

- 1<sup>st</sup> Year: Attend foundation level, i.e. stages 1 & 2;
- 2<sup>nd</sup> Year: Attend practitioner training, i.e. stages 3 & 4;
- 3<sup>rd</sup> Year: Attend clinical practice level, i.e.stages 5 & 6;

In between in-person class attendance of 6 stages, students dedicate 6-10 hours per week of home study for:

- Satisfactory completion of all homework assignments;
- Completing a minimum of ten client case studies;
- Sitting final exams including written and practical.

Visit <u>www.CoMHA.org.uk/StudentHandbook</u> to read the full detailed assessment criteria for professional Diplomas.

## **Specialisation Diploma Qualifications**

After enrolling in a Professional Diploma programme, students may choose to add a particular specialisation.

In order to successfully achieve their specialisation Diploma qualification, students are required to:

- Fulfil all the requirements for successfully achieving their Professional Diploma.
- Attend additional classes run by the College for their particular specialisation;
- Complete additional assignments pertaining to their particular specialisation;
- Pass additional exams pertaining to their particular specialisation.

Here are all the specialisation Diplomas for students and graduates currently available:

- Diploma in Iridology (email us for details).

Other specialisation Diploma programmes may be added in the future to support graduates' continual education and training.

# Validation & Qualifications

#### **Accreditation**

The College of Medicine and Healing Arts (CoMHA) is accredited by The Guild of Unani Tibb (TGU).

CoMHA has excellent credibility and reputation within the fraternity of Tibb, due to its high standards.

Graduates of CoMHA are respected by their peers within complementary and alternative medicine (CAM).

### The Guild of Unani Tibb (TGU)

After enrolment in a professional Diploma, student membership can be acquired. Successful graduates can apply to join the Guild as practitioner members.

Go to **www.TheGuildOfUnaniTibb.com** for details.

### **Professional Indemnity Insurance**

Successful gradates of CoMHA can apply for professional insurance before they begin their practice. This protects them and the public.

# Opportunities for Graduates

Here are some of the options available to our graduates:

- Diploma in Herbal & Naturopathic Medicine (Unani Tibb): you may wish to set up your own practice as a herbalist, naturopath, nutritionist, wellbeing counsellor, or personal health advisor.
- Specialisation Diploma in Iridology: those who complete this in addition to their professional Diploma can practice as an iridologist.
- You may also continue your training with the College of Medicine and Healing Arts, expanding your range and depth of knowledge, and the skills that this classical tradition offers you.
- You may wish to apply with our College to become certified as a teacher, trainer, or coach.

#### **Support After Graduating**

As a CoMHA graduate you will have access to continuing support after graduating, as well as clinical supervision.

# Foundation in Tibb (Natural Health) – Aim & Objectives

### **Aim of the Foundation Programme**

To be able to understand the importance of health and wellbeing, and to gain the basic knowledge and skills needed to look after their own and their family's health and wellbeing in a safe, effective and sustainable way, based on the Tibb tradition, incorporating useful knowledge and skills from Complimentary & Alternative Medicine (CAM).

# **Stage 1 – Life Balance & Healthy Living**

In this stage, learners are introduced to the *Tibb* wholeperson approach, specifically the seven components of the human constitution – *umur-e-tabiyat*.

Learners are introduced to the Six Life-Balance Factors – *asbab-e-sittah-dharuriah*, and how to use them to promote their own health.

Learners practically prepare a range of wholesome and healing dishes, drinks, and spice mixtures, according to the recipes in Alchemy in the Kitchen.

# Stage 2 – Whole-Person Healing & Medicine

In this stage, learners further their learning by exploring specific interventions pertaining to the Six Life-Balance Factors. A major focus in this stage is nutrition, with a particular focus on *Tibb* – whole-person nutrition.

A key theme introduced in this stage is the healing crisis.

Learners are also introduced to single remedies and compound formulations, beginning to develop practical skills in safe herbal medicine preparation.

# Diploma in Herbal & Naturopathic Medicine (Unani Tibb) – Aim & Objectives

### **Aims of the Diploma Programme**

After taking the foundation level (i.e. stages 1 and 2), this programme is designed for the graduate to be able to run a safe, effective, legal and financially sustainable naturopathic and herbal practice based on the Tibb tradition, incorporating useful knowledge and skills from Complimentary & Alternative Medicine (CAM).

# Stage 3 – Tibb Physician Training & Clinical Skills

Students in this stage begin to develop their consciousness, approach and skills as future Tibb physicians. They continue to develop the knowledge and skills they began in Stage 2, now with a patient-centred approach.

In this stage, students learn and develop the skills to conduct a patient interview and take relevant case notes, as well as to professionally assess an individual client/future patient.

The training delivered in this stage emphasises professional considerations such as health and safety, confidentiality, record keeping and data protection.

# Stage 4 – Therapeutics & Practice Management

Basic wholistic anatomy and physiology is introduced in this stage. Specific disease examples are explored with a view to learning how to successfully manage maintenance of health and treatment of diseases.

Students in this stage are informed of the basic procedures with respect to accidents and emergencies, and to know when to refer a patient elsewhere.

In Stage 4, just like in Stage 3, professional considerations are emphasised, with a particular focus on UK legislation that is relevant to their practice. In addition, students learn the main business considerations relevant to their practice.

After completing Stages 3 and 4, students can begin to take their own individual clinical case studies.

### **Stage 5 – Clinical Practice**

This is a practical stage where students acquire the skills they need to eventually demonstrate safe, effective, legal and financially viable naturopathic and herbal practice.

#### **Prospectus** | Diploma in Herbal & Naturopathic M...

In Stage 5, students practically learn how to prepare and manage their clinic premises and equipment, receive patients, interview their patients, and learn important skills to do with making and dispensing medicines.

Students are required to attend this stage which will allow them to experience various clinical activities and preparing and dispensing medicines.

### Stage 6 – Review & Consolidation

This stage is to review the progress of each learner, in regards to their personal development as well as their professional development.

As well as a general review, the focus is specifically on reviewing and updating students' individual clinical case studies. In this stage, students prepare to complete any remaining coursework and be ready for their exams.

# Diploma in Iridology – Aim

### Aim of this Specialisation Diploma

Students wishing to achieve this Specialisation Diploma need to successfully complete the Diploma in Naturopathic & Herbal Medicine (Tibb) or the Diploma in Counselling & Psychotherapy (Nafsiyat). Please see the relevant sections earlier in this prospectus.

The aim of this Specialisation Diploma is for students already on a Professional Diploma programme to add to their repertoire of knowledge and skills by becoming a skilled and competent iridologist.

# Diploma in Iridology – Curriculum

## **Iridology Training**

#### **Towards Becoming an Iridologist**

- 1.1 The Iridologist's Role and Responsibilities
